Subject: Review: Proposed Enclosure on Options for Oregon to Pursue to Address Additional Forestry Measures
Draft Options for Closing the Gap on Forestry Management Measures--122314.docx

Hi All,

Christine put together an enclosure that would go with the letter that outlines the options Oregon could pursue for an approvable program for forestry that would meet the requirements of CZARA and NMFS for coho recovery. Obviously, this would need to be closely review by NMFS and she assumes that NOAA will coordinate with NMFS on this enclosure. Please review and let's discuss this enclosure at our Dec 30th call.

Subject: Comments on Cover Letter; Proposed Enclosure to go with Cover Letter

Attached please find my comments on the cover letter. I worked off of the version that Lynda

Ex. 5 - Deliberative

what staff have put together for Dennis' and Will's discussions with the state.

I'm not entirely sure whether this cover letter and enclosure should affect the content of the FRN notice, so would like folks' thoughts on that.

Subject: Review Requested by COB January 5 on Draft Federal Register Notice and Cover Letter to the State

Hi All,

The tech team is moving quickly to be ready for January 30 and needs your review of the draft Federal Register Notice and cover letter, ideally by COB January 5.

Our plan is to revise the draft decision and responses to comments documents to address all of your comments towards the end of the week of January 8, with technical editorial review conducted by our contractor no later than January 15. We will begin circulating the package (Federal Register Notice, cover letter, decision document and response to comments) soon after. Implementing the communications or roll out strategy should be in full swing during that time period.
